LEVELING NOTES & RECOMMENDATION — why the low leveled bid is low, what was plugged, anything to negotiate before award

Peak has the lowest base bid but excludes \$20,950 of specified scope and wants a 50% deposit. Mile High is low on a leveled basis once Summit buys curbs and hail guards separately (\$5,450). Recommend award to Mile High HVAC Supply at \$67,490 (base plus freight), curbs and hail guards purchased separately — \$1,860 under the estimate line.

RECOMMENDED AWARD

Mile High HVAC Supply — \$72,940.00 leveled

Incl = in the bidder's price, Excl = not in the price — the plug value is added so every bidder carries the same scope. A number is an add or (deduct) the bidder quoted for that item. Leveled total = base bid + plugs + quoted adds.

Plug values are your estimate of what an excluded item will cost to buy elsewhere — use real quotes where you have them. A low leveled bid still needs its exclusions written into the purchase order or subcontract. Not legal advice.
