PROJECT

CONTRACT / PREPARED BY

STATUS

Status date · review period

Not submitted

Submitted (in review)

Approved / as noted

Revise / rejected

[illegible]

Submit by = need-on-site date – lead time – review period. One row per submittal and a new row for each revision. Status: Not Submitted → Submitted → Approved / Approved as Noted (install to the markups) / Revise and Resubmit / Rejected. Days in review counts from the submitted date to the returned date, or to the status date while it sits with the reviewer.

General-purpose form, not legal advice. Your specification (usually Division 01 — Submittal Procedures) sets the numbering, the review period, resubmittal rules and what a reviewer stamp does and does not approve. Follow it, and keep the returned copy with the transmittal.
